Dear Jim:-

It is good to be able to write to you. I hope that you are getting used to the different way of living now, people tell me that the first few weeks are the worst. But whatever you do look after yourself and if you dont get enough to eat try and buy something outside. If there is anything you want Jim let me know and I'll get it for you. We are except Francis. food get much better. days holiday last could not get on pool, it was too took the children on the bus. she is always and I told her got a airplane

One comes over the house now she shouts come and look at our Jim's plane, and wants to know if you are in it, and can you see her and are you waving to her; you ~~the~~ know how she asks questions. Gladys & Sheila went to the pictures on Thursday night, and they went to Huddersfield on Saturday to see Dorothy, and Gladys stayed here overnight and went to church this morning, they have gone to Otley now and taken the kiddies with them so they will have a real time. Well love I don't know when Sheila is getting married he has not set off from Africa yet, but I will let you know as soon as ever I hear, we are all longing to see you, it seems like months since you went away.
